SOLDIERS' SPIRIT COUNTS FOR MOST IN CRUCIAL TIME

Over Necessity Not To Lose

"CAUSE" IS NEEDED

History Shows Victory Doesn't Always Go To Side With Most Men

(History long since has demonstrated repeatedly that victory in a crucial conflict does not always go to the side with the most men, the most weapons and the most supplies. The spirit of the soldiers involved plays a great part in the final decision. In the following article, last in a series of six, Kenenth L. Dixon, International News Service roving reporter who has recently returned from Palestine, compares the elements of this spirit in the Jewish and the Arab armies now locked in bloody struggle in the Holy Land.)

A Spring Thought

(By "The Stroller")

At this season of the year-Spring-we think of things which are beautiful and our thoughts, as well as our eyes, are centered on that which is attractive.

Now here is a case directly the opposite-our eyes and our thoughts are attracted to the things which are generally labeled "eyesores."

Drive along Route 13 through Bristol and list the "eyesores." Junk yards and auto graveyards we realize are a necessity and they are businesses

THE EASTER MESSAGE

It is a happy circumstance that it is not necessary to choose between the two great religious festivals of the Christian year. Both Christmas and Easter are rich in meaning and beauty. Both speak simply and directly to the deepest instincts of the human heart. Both carry messages of joy and faith.

In a sense these messages are the same. Both are magnificent of Easter is rebirth. But if the more triumphant.

We declare again, in countless ways, the truth that the spirit of love and brotherhood can never suffer final defeat.

A Judge On Communism

This leads us to a distinction between the American system and Communism which Justice Douglas appears to have ignored, though it is fundamental: that the American system attempts to protect the minority just as much as to implement the powers of the majority Communism, of course, recognizes no "minority" rights at all, and no individual rights as being beyond the authority of the government to

Another field of inquiry which is of the greatest urgency at this "preview" of the new lesson ma- partments; 11, morning worship, a period of history, but which the Justice appears to have felt was too delicate to touch on in his survey, is whether State Socialism is a form of "democracy" or a form of Communism.

This is, indeed possibly the \$64 question of world policy today, Justice Douglas would have plunged into deep water had he attempted to discuss it. The fact is, of course, that a thousand points prove that our American government, in the past few years, has been watered down Socialism far more than it has been anything properly describable as "democracy," or the representative republicanism intended by the Con-

Justice Douglas does not need go beyond his own Supreme Court o know how true this is. The prostitution of the Supreme Court, created as the major protection of the American people from tyrannical government, into a mere catspaw of the New Deal political party, is one of the major steps in this country's march towards full Socialization. There can be neither democratic nor republican government in the absence 1 at the home of Mrs. Melvin R. of an independent and politically unbiased judiciary—and the Supreme Cox. 369 Taft street; eight p. m., Court has voluntarily surrendered both its independence and its im- Circle No. 5 at the home of Mrs.

On the day when Mr. Krock's column on the Douglas study appeared, elsewhere in the New York Times was a dispatch from England quoting Hugh Dalton, a leader of the British Labor Party, as hailing the Marshall Plan as a major aid to Socialism in Europe. He pointed out that virtually all of the sixteen European beneficiaries of the expected American gifts were completely or principally Socialistic.

Now, by implication if not direct statement, Justice Douglas assumes that these Socialistic nations, including Great Britain, are close akin in methods and ideology to those of the United States Government. He obviously assumes that Socialism is merely an advanced form of

Is this correct? There was a time when it would have been denied Katharine Beck, general superinindignantly and automatically throughout the U. S. A. But so confused tendent, Mrs. Frank Weik and Mrs. has become our thinking that today millions appear to share his view. Let's look at some facts.

First, Russia herseif is not "communistic." Russia is under Social ism. One of the "S's" in U. S. S. R. stands for Socialistic. The ideology of the Russian Communists is drawn from precisely the same originators of Socialism as were those of persons who call themselves Socialists.

Again, there are two outstanding examples of countries, both strongly opposed to Russian Communism, where the theories of Socialism were brought to their full flower—where we can trace, not only the beginnings, ical Board of Missions; service of as they exist now in England and throughout Europe, but the end results Holy Communion; nursery depart-

Those two countries were Germany and Italy. The essentially Socialistic parties which completed the cycle of State Socialism were assertions, for the essence of the Nazis (National Socialists) and the Fascists; and the Socialistic Christmas is birth and the essence leaders who arose were Hitler and Mussolini. By MARION CLYDE McCARROLL

A home designed for country comfort is this rather rambling white clapboard house, basically Colonial in its architecture but modified to provide such modern conveniences as, for instance, the attached garage.

Built on a deep lot, the house makes a focal point of a rear garden. providing ample porch space for garden-gazing and general outdoor

The interior plan is unusually attractive and appealing, with the living quarters, located in the central part of the house, effectively separating the service and sleeping areas, each of these being assigned a complete wing of its own. Room and bath for the maid, located above the service wing, are the only living accommodations on the upper floor.

While the two bedrooms make it, as it stands, a home for only a small family, other bedrooms could no doubt be readily added as desired.

THE ONLY LIVING ACCOMMODATIONS on the upper floor are the maid's

A Judge On Communism

This leads us to a distinction between the American system and communism which Justice Douglas appears to have ignored, though it is fundamental: that the American system attempts to protect the minority just as much as to implement the powers of the majority. Communism, of course, recognizes no "minority" rights at all, and no individual rights as being beyond the authority of the government to

Another field of inquiry which is of the greatest urgency at this period of history, but which the Justice appears to have felt was too terial. "This is an important meet delicate to touch on in his survey, is whether State Socialism is a form "democracy" or a form of Communism.

This is, indeed possibly the \$64 question of world policy today. Justice Douglas would have plunged into deep water had he attempted to discuss it. The fact is, of course, that a thousand points prove that our American government, in the past few years, has been watered down Socialism far more than it has been anything properly describable as "democracy," or the representative republicanism intended by the Constitution

Justice Douglas does not need go beyond his own Supreme Court to know how true this is. The prestitution of the Supreme Court, created as the major protection of the American people from tyrannical government, into a mere catspaw of the New Deal political party, is one of the major steps in this country's march towards full Socialization. He pointed out that virtually all of the sixteen European beneficiaries of the expected American gifts were completely or principally Socialistic.

Now, by implication if not direct statement, Justice Douglas assumes that these Socialistic nations, including Great Britain, are close akin in methods and ideology to those of the United States Government. He obviously assumes that Socialism is merely an advanced form of Fred

The ideology of the Russian Communists is drawn from precisely the same originators simply and directly to the deepest of Socialism as were those of persons who call themselves Socialists.

The fact is that, point by point, the ideologies of Communism and of the other is even greater and Socialism agree. They are cut from the same cloth and by the same pattern. VALVE-IN-HEAD is far ahead!

Here's why "Valve-in-Head Is Far Ahead" in all-round efficiency

1 In the world's champion Chevrolet engine, the valves are located in the head of the cylinder, directly over name, Valve-in-Head.

2 Valve-in-Head design provides faster intake of fuel mixture . . . and quicker and more complete exhaust of burned gases . . . all of which contributes to better performance and economy.

3 Vatve-in-Head design also permits a more compact combustion chamber; and this, together with Chevrolet's "Blue Flame" compower for the pistons-less heat loss-and maximum

4 Valve-in-Head engines are nherently easier to cool and Chevrolet's individual cooling of cylinders pre-vents waste of power-promotes efficient operationprolongs engine life.

Moreover, with all of the valve mechanism on top of the engine -and therefore readily accessible-service, though seldom needed, is extraordinarily easy

Automotive experts and millions of motorists agree: Valve-in-Head is far ahead because it gives an outstanding combination of performance, endurance, dependability and economy. . . . Chevrolet—master builder of this master motor has proved this by producing more than 20 million Valve-in-Head engines during the past thirty-seven years-engines which hold the distinction of having delivered more billions of miles of satisfaction, to more owners, over a longer period, than any other power-plant built today! Chevrolet's World's Champion Valve-in-Head engine is another powerful reason why CHEVROLET AND ONLY CHEVROLET IS FIRST . . . another convincing proof that only Chevrolet gives BIG-CAR QUALITY AT LOWEST COST!

In addition to its World's Champion Valve-in-Head Engine, Chevrolet offers you these other major advantages of Big-Car Quality at Lowest Cost: BIG-CAR STYLING AND

Valve-in-Head is far ahead because it gives an outstanding combination of performance, endurance, dependability and economy. . . . Chevrolet—master builder of this master motor has proved this by producing more than 20 million Valve-in-Head engines during the past thirty-seven years—engines which hold the distinction of having delivered more billions of miles of satisfaction, to more owners, over a longer period, than any other power-plant built today! Chevrolet's World's Champion Valve-in-Head engine is another powerful reason why CHEVROLET AND ONLY CHEVROLET IS FIRST . . . another convincing proof that only Chevrolet gives BIG-CAR QUALITY AT LOWEST COST!

Automotive experts and millions of motorists agree:

In addition to its World's Champion Valve-in-Head Engine, Chevrolet offers you these other major advantages of Big-Car Quality at Lowest Cost BIG-CAR STYLING AND

Today's Quiet Moment By The Rev. Lehman Strauss Calvary Baptist Church

Text: Luke 24:5, 6 Why seek ye the living among the dead? He is not here but is risen.

O God our Father, it is with joyful hearts that we dare come unto Thee through the living Christ. We thank Thee for His bodily Resurrection from death and the grave. In reverence we approach again the empty sepulchre of Joseph of Arimathea. We are encouraged by our Saviour's words, "I am He that liveth, and was dead, and behold I am alive to realize that our Saviour is not dead, but alive at Thy right hand in Glory, and that all who will put their trust in Him shall have everlasting life. May the hearts of many be turned to Him in humble contrition and confession of sin. We pray in Jesus noly name. Amen.

among the dead? He is not here.

O God our Father, it is with

joyful hearts that we dare come

unto Thee through the living

Christ. We thank Thee for His

bodily Resurrection from death

and the grave. In reverence we

approach again the empty sepul-

chre of Joseph of Arimathea. We

are encouraged by our Saviour's

words, "I am He that liveth, and

was dead, and behold I am alive

for evermore." Now that He

lives, we too may live. Give us

to realize that our Saviour is not

dead, but alive at Thy right hand

in Glory, and that all who will

put their trust in Him shall have

everlasting life. May the hearts

of many be turned to Him in

humble contrition and confes-

sion of sin. We pray in Jesus'
